Roy Hill and GE Welcome Pink Locomotives to Port Hedland in support of breast cancer patients and research

Today Roy Hill, Hancock Prospecting and GE celebrated a Pilbara, Australia and Australasia first with the arrival of two new pink locomotives at an event held at Roy Hill's Port Hedland rail terminal yard.

The two locomotives and ore cars join Roy Hill's existing fleet of 21 GE trains, and have been painted pink in honour of Chairman Gina Rinehart's continuing commitment to support patients and research into breast cancer.

At the event, Mrs Rinehart christened one of the locomotives 'For Mothers', and Dr Patricia Kailis AM OBE christened another locomotive the name of 'Women of the North'.

Understanding Mrs Rinehart's deep commitment to supporting breast cancer patients and research for better treatments and cures, GE was excited to support Roy Hill's request to have the new locomotives painted pink.

"We deeply value our relationship with Roy Hill and are thrilled to celebrate the arrival of these locomotives to their fleet," said Claire Pierce, Executive Leader for GE Transportation in Australia.

"This marked the first time GE has painted a locomotive pink and we are proud to support such an important cause. These locomotives will serve Roy Hill well both in hauling millions of tons of ore and demonstrating their commitment to breast cancer prevention, diagnosis, treatment and survivorship," said Nalin Jain, President and CEO, International at GE Transportation.

In addition to the pink locomotives, guests on the day also marvelled at the rake of pink ore cars standing proudly on the rail line.

"Today we also acknowledge with thanks the China Railway Rolling Stock Corporation (CRRC) who last quarter delivered 130 pink ore cars to Roy Hill. These cars, when attached to one of our new GE pink locomotives will create a striking image as they forge their way across the Pilbara. May these pink trains continue to inspire us to do more for breast cancer patients and support research to help fight this truly terrible and sad disease" Mrs Rinehart said.

About Roy Hill

Roy Hill is a world-class iron ore operation and the largest single ore mine in Australia.

Situated 344km south east of Port Hedland in Western Australia's mineral rich Pilbara region, Roy Hill is an independent iron ore operation with local majority ownership and chaired by Mrs Gina Rinehart.

With integrated mine, rail and port facilities producing 55Mtpa – Roy Hill is one of the world's major resource-based operations, which will deliver enormous benefits to the broader community for many years to come.

Roy Hill's first shipment of iron ore departed from Port Hedland on 10 December 2015 and has since loaded multiple shipments to its key markets in Japan, Korea, China and Taiwan. Roy Hill achieved many firsts, including for its largely Greenfield project, the largest mainland resource debt funding in the world, from 19 of the world's largest banks, and five Export Credit Agencies.

Roy Hill operates some of the largest equipment in the world and in addition to having the fastest ramp up to 55Mtpa in the Pilbara, has maintained a focus on safety excellence.

In December 2015, Mrs Rinehart was recognised as "Miner of the Decade" by the Sydney Mining Club. She has also been awarded "Chairman of the Year" by CEO Magazine.

Roy Hill has been presented with a range of accolades, including:

- 2018 WA Training Awards WA Employer of the Year
- 2018 L&MH Mercury Awards Transport Solution of the Year: Rail
- 2017 Platts Global Metals Awards Rising Star Company Award
- 2016 Australian Mining Prospect Awards Excellence in Environmental Management Award
- 2016 Engineers Australia (WA) Australian Engineering Excellence in Engineering Distinction
- 2016 Engineers Australia (WA) Australian Engineering Excellence in Resource Development
